Me and
My Bed

axelbloom Life Style
European Sleep Technology

Designed to transform your sleep experience forever

Eric and Lorelei Neitzel
Los Angeles, California

"Our most recent coil mattress was less than a year old when we noticed a trench-like dip. This 'dip' put pressure on our lower backs causing lower back pain and restless sleep. We decided to purchase a foam mattress and are absolutely thrilled. We awaken each morning with no lower back pain, feel well-rested and ready to begin the day. "

Lise Stern
Los Angeles, California

"I want to let you know that I am very satisfied with the sleep technology system that I purchased from Axel Bloom. I realized immediate relief from my back and hip problem after only one night of sleep. The fact that the system is adjustable at both ends, head and feet, is important in establishing the superiority of this system. The system separates easily, making cleaning easy and serves to keep the system from being unwieldy. All in all, an outstanding value. I congratulate Axel Bloom for offering the consumer this fine product."

Testimonials

Michael Chandler, Los Angeles, CA

"I am really satisfied with my new sleep system! I am sleeping longer, feel rested when I wake up, and my lower back problems are significantly much better. In fact, they're almost non-existent. I never thought a new bed could make that much of a difference to a good night's rest. I'm truly amazed! My body thanks you!"

Cary & Jill Ostrie, San Francisco, CA

"I wanted to let you know how thrilled my wife and I are with our Casa bed. The bed is extremely comfortable and has a great contemporary look. In addition, the service we received was excellent."
